[Despatch Abstract.]

INDUSTRIES -.Sericulture - Government Silk Filatures, Kollegal - Construction of additional buildings - Sanctioned.

Industries & Labour Department.

From: Sri M.G. Sankaran, M.Sc.(Edin.), Director of Industries & Commerce, Madras.

To: The Secretary to Government, Industries & Labour Department.

UNDER SECRETARY
26 APR 1946
DEVELOPMENT DEPARTMENT

Rc.847-D.1/43 dated 20th April 1946. 2711 D/4

Sir,

Sub: Industries-Agriculture - Govt. Silk Filatures, Mollegal - Construction of additional buildings - Sanction of expenditure - Requesting.

The above mentioned plans and estimates in respect of additional accommodation required for the Govt. Silk Filatures, Mollegal. As it is found very difficult by experience to carry on the various operations connected with the reeling industry in the accommodation at present available in the Govt. Silk Filatures, the General Manager Govt. Silk Filatures, Mollegal has proposed improvements. The following

I. Silk waste Godown: There was no provision in the original lay out for silk waste cleaning, storing etc. One of the reeling halls is at present being used to accommodate the silk waste section. In the event of the amalgamation of the two filatures more number of reels in the Govt. Silk Filatures will have to be worked, in which case a separate building for the silk waste section to serve both as a godown and as a cleaning section is necessary. From a technical point of view it is not at all desirable to have the silk waste section anywhere near the cocoon stores, as dust from the silk waste may play havoc on the cocoons. This can be located on the other side of the reeling halls away from the cocoon godown. The total estimated cost of constructing this building will not be more than Rs.20,000/-

II. Corridor between the two reeling halls: At present the two reeling halls are separated by an open space of about 50 feet. It is very troublesome for the staff and the labour to move about frequently between the halls, particularly on rainy days. A corridor is therefore necessary. The expenditure on this account is estimated to be Rs.2500/-.

III. General Stores: The space that is now available for the general stores is very inadequate and one half of one hall of the cocoon godown is being used to store some of the stock articles. With all the work concentrated at the Govt. Silk Filatures and with the section also working in full swing, it will not be possible to spare any space in the cocoon godown for any other purpose. It is necessary therefore to extend the bay towards the road side to provide an additional room. There is ample space available for the purpose. The cost of the work is estimated to be Rs.3250/-.

IV. Workshops: The present space for the workshop is very inadequate. The carpentry section, which will grow in importance when the re-reeling plant is installed, has also to be accommodated. The power lathe, drilling machine etc. obtained for the Mollegal Silk Filatures have to be shifted to the Govt. Silk Filatures. It is desirable to have a proper workshop in the filature itself instead of going to a long distance for any of the ordinary repairs to plant and machinery. The existing bay may be extended, as in the case of the general stores, thereby making the cocoon godown symmetrical. The estimated cost of this work will be Rs.3000/-

V. Additional verandahs to the office building: The office building is at present having only two verandahs on two sides. In order to prevent rains blowing into the rooms from the western and northern sides, two verandahs on the two other sides are necessary. The expenditure on this account will be Rs.2400/--

P.T.O.

-2-

... additions are the minimum required to ... necessary to ... selves in respect of the space required ... and they will go a long way to improve the efficiency of work. The total cost of these works is Rs. 31,150/-. A site plan of the Govt. Silk Filatures showing the proposed improvements is enclosed. I request that Government may be pleased to sanction the expenditure.

Sub:- Industries - Sericulture - Govt. Silk Filatures, Kollegal - Construction of additional buildings - Sanctioned.

Read:- From the D.I.S. 6477/46 d. 23.4.46

Order No. No. 2273 Dev.d 10.6.46

Sanction is accorded to the incurring of an expenditure not exceeding Rs.31,150/- (Rupees thirty one thousand one hundred and fifty only) on the construction of the following additional buildings required for the Govt. Silk Filatures, Kollegal, as per the details of cost shown against each.

(1) Silk waste godown ... Rs 20,000

(2) Corridor between the two reeling halls in the filatures ... Rs 2,500

(3) General Store ... Rs 3,250

(4) Workshops ... Rs 3,000

(5) Additional Verandahs to the office building ... Rs 2,400

Total. Rs 31,150

The plans and estimate submitted by the D.I.S. with the 1st cited (2) for these additional constructions are approved.

C.27110D/46 Ref:- From the D.I.&C, 647D/46 dt 28th April 1946

To A.S.

Please see the D.I.&C's letter at pp/1-2 c/f.

The proposal of the D.I.&C at pp/1-2 c/f on the Construction of additional buildings involves a non recurring expenditure of Rs.31,150/- The reasons for the proposal are given under each of the five headings on p/1 c/f. For orders whether such a large expenditure will be approved in the light of the reasons stated on p/1 c/f. The case may be sent to Finance for remarks in the first instance.

ASST. SECRETARY TO GOVERNMENT
3 MAY 1946
FINANCE DEPARTMENT

26525 AB.

Finance(Accts-B).

The proposal in this file relates to the construction of additional buildings required for the Govt.Silk Filatures,Kollegal at an estimated cost of Rs.31,150/- as detailed below:-

	Estimated cost. Rs.
(i) Construction of a silk waste godown ..	20,000
(ii) Construction of a corridor between the two reeling sections..	2,500
(iii) Additional accommodation for General Stores.	3,250
(iv) Extension of workshop	3,000
(v) Additional verandah to the office building	2,400
	31,150

The necessity for the additional accommodation is stated in the D.I.& C's letter on pages 1-2 c.f. The D.I.&C has also stated that the above additions are the minimum requirements necessary to make the filatures self-sufficient in respect of the space requirements and that they will go a long way to improve the efficiency of the work.

Para 4, p 2 c/f

Development proposo to accept the proposal of the D.I. &C. Proposals of this kind are ordinarily treated as Part II Schemes. Finance may advise that the present proposal may be brought forward as Part II Scheme for 1947-8. If Govt. consider that the proposed works are urgent and should be executed in the current year itself, they may be requested to follow the New Service procedure, as the cost exceeds Rs. 30,000.

Orders of the Cabinet in full circulation will have to be obtained. Steps will also have to be taken to obtain the vote of the legislature to a supplementary statement of expenditure in due course in the current year. ~~Meanwhile the A.G. will have to be asked to admit the expenditure in audit pending provision of funds.~~

The expenditure on the works is debitable to '85-A Capital Outlay on Provincial Schemes of State Trading-J. Government Silk Filatures, Kollegal-F.6.-Buildings, Plant and Machinery and other equipment.'

UNDER SECRETARY 7 - MAY DEVELOPMENT DEPARTMENT

J. A.S.

This file deals with the proposal of the D.I.&C. to construct additional buildings for the efficient working of the Govt. Silk Filatures, Kollegal. The reasons for the proposal are given at pp 1-2 cf. The plans and estimate for the construction works are at (2). The proposal involves a non-recurring expenditure of Rs 31,150/- (1). This dept. support the proposal. The finance dept advise that it may be brought forward as Part II Scheme for 1947-48. In view of 'A' on pp 1-2 cf, ~~it is perhaps necessary that the buildings have to be contracted in the current year itself.~~ the proposal may be considered to be urgent. The case may therefore be circulated for order

i) ~~Whether the proposal of the D.I.&C. to incur an expenditure of Rs 31,500/- on the construction of additional buildings for the Govt. Silk Filatures, Kollegal may be accepted and treated as an urgent measure for which provision will be made in the current year or~~

ii) ~~if not,~~ Whether the D.I.&C. will be asked to bring it forward as a Part II Scheme for 1947-48 in due course as suggested by Fin. Dept.

i) above may be approved

It is obviously undesirable to postpone the construction of the Silk waste godown in view of the D.I & C's warning that dermistis from the silk waste may play havoc with the cocoons. Certain minor items like the corridor between the two reeling halls and the construction of additional verandahs to the office building might probably be postponed but the bulk of the expenditure is on the construction of the Silk waste godown. There is no point in postponing these minor improvements which may well be undertaken along with the major improvements proposed by the Director. The proposals are calculated to improve the efficiency of the factory and should therefore be treated as urgent

(i) ~p.2 above may be approved.
